## **DETAILED ACTION**

### ***Election/Restrictions***

1. The Office Action of March 15, 2006 was an Election/Restriction made on claims 1-19; however those claims were cancelled and claims 20-38 added in a Preliminary amendment. The previous Office Action is vacated, and the time for response is restarted. Any inconvenience to the Applicant is regretted.

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Group IA, claims 20-23 and 27 drawn to a method associated with Fig. 1

Group IB, claims 24-26, drawn to a method associated with Fig. 2

Group IIA, claims 28-31, and 35-38 drawn to apparatus of Fig. 1

Group IIB, claims 32-34, drawn to apparatus of Fig. 2

3. The inventions listed as Groups IA-IB and IIA-IIB do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The groups listed above are not within the permitted combination of different categories of inventions: that is one apparatus and one process. As set forth in the form PCT/IPEA210 they lack the same special technical feature that defines a contribution over the prior art.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
